

## CHEERS 2022 Checklist

	Item	Guidance for Reporting	Reported in section
<b>TITLE</b>			
Title	1	Identify the study as an economic evaluation and specify the interventions being compared.	page 1
<b>ABSTRACT</b>			
Abstract	2	Provide a structured summary that highlights context, key methods, results and alternative analyses.	page 2
<b>INTRODUCTION</b>			
Background and objectives	3	Give the context for the study, the study question and its practical relevance for decision making in policy or practice.	page 5–6
<b>METHODS</b>			
Health economic analysis plan	4	Indicate whether a health economic analysis plan was developed and where available.	Additional File 1 page 30
Study population	5	Describe characteristics of the study population (such as age range, demographics, socioeconomic, or clinical characteristics).	page 7
Setting and location	6	Provide relevant contextual information that may influence findings.	page 7
Comparators	7	Describe the interventions or strategies being compared and why chosen.	page 9–10
Perspective	8	State the perspective(s) adopted by the study and why chosen.	page 11
Time horizon	9	State the time horizon for the study and why appropriate.	page 9
Discount rate	10	Report the discount rate(s) and reason chosen.	page 10
Selection of outcomes	11	Describe what outcomes were used as the measure(s) of benefit(s) and harm(s).	page 10–11
Measurement of outcomes	12	Describe how outcomes used to capture benefit(s) and harm(s) were measured.	page 10–11
Valuation of outcomes	13	Describe the population and methods used to measure and value outcomes.	page 9–11
Measurement and valuation of resources and costs	14	Describe how costs were valued.	page 11
Currency, price date, and conversion	15	Report the dates of the estimated resource quantities and unit costs, plus the currency and year of conversion.	page 9–10
Rationale and description of model	16	If modelling is used, describe in detail and why used. Report if the model is publicly available and where it can be accessed.	page 24
Analytics and assumptions	17	Describe any methods for analysing or statistically transforming data, any extrapolation methods, and approaches for validating any model used.	Additional File 1 page 30–31
Characterizing heterogeneity	18	Describe any methods used for estimating how the results of the study vary for sub-groups.	Additional File 1 page 30–31
Characterizing distributional effects	19	Describe how impacts are distributed across different individuals or adjustments made to reflect priority populations.	Additional File 1 page 30–31
Characterizing uncertainty	20	Describe methods to characterize any sources of uncertainty in the analysis.	Additional File 1 page 30–31
Approach to engagement with patients and others affected by the study	21	Describe any approaches to engage patients or service recipients, the general public, communities, or stakeholders (e.g., clinicians or payers) in the design of the study.	Additional File 1 page 30–31
<b>RESULTS</b>			
Study parameters	22	Report all analytic inputs (e.g., values, ranges, references) including uncertainty or distributional assumptions.	Additional File 1 page 30–31
Summary of main results	23	Report the mean values for the main categories of costs and outcomes of interest and summarise them in the most appropriate overall measure.	page 13–16
Effect of uncertainty	24	Describe how uncertainty about analytic judgments, inputs, or projections affect findings. Report the effect of choice of discount rate and time horizon, if applicable.	page 13–16
Effect of engagement with patients and others affected by the study	25	Report on any difference patient/service recipient, general public, community, or stakeholder involvement made to the approach or findings of the study	Additional File 1 page 30–31
<b>DISCUSSION</b>			
Study findings, limitations, generalizability, and current knowledge	26	Report key findings, limitations, ethical or equity considerations not captured, and how these could impact patients, policy, or practice.	page 16–22
<b>OTHER RELEVANT INFORMATION</b>			
Source of funding	27	Describe how the study was funded and any role of the funder in the identification, design, conduct, and reporting of the analysis	page 25
Conflicts of interest	28	Report authors conflicts of interest according to journal or International Committee of Medical Journal Editors requirements.	page 25
