

ESM Table 11. Heterogeneity test of OR of rs10229583 among different populations in the present study.

Population	OR	Heterogeneity of OR	
	(95% CI)	<i>Q</i> test <i>P</i>	<i>I</i> ²
Chinese	1.18 (1.11, 1.25)	--	--
Japanese + Korean	1.09 (1.01, 1.18)	0.1254	0.5742
DIAGRAM+	1.06 (1.02, 1.12)	0.0088	0.8544
Malaysian + Indian	0.90 (0.82, 1.00)	1.1×10^{-5}	0.9485

Q test *P* and *I*² refer to the statistical significance and quantified index of heterogeneity test of OR between Chinese and other populations, respectively.
