SPBC (70): Survival probability of becoming a centenarian for those aged 70 (per 10,000)

MF: Females and Males, M: Males, F: Females

GNI: Gross National Income per capita (constant 2005 international \$) (1990-2010)

PEHGDP: Public expenditure on health as a percentage of GDP (% of GDP) (2000-2010)

FMTS: Fixed and mobile telephone subscribers (per 100 people) (1980-1990)

ISF: Proportion of the population using improved sanitation facilities (%), urban (2005-2010)
