

Supplementary Table 1: Number of subjects enrolled and number of subjects excluded from per-protocol cohort analysis with rationale for exclusion at each time point

Cohorts (n) /rationale for exclusion	D0/D21	D42	D182	D203*	D364
Total Cohort	313				
Study vaccine dose not administered	7				
Total Vaccinated Cohort (TVC)	306	306	306	122	306
Administration of vaccine (s) forbidden in the protocol	5	6	27	25	2
Study Vaccine Dose not administered according to protocol	0	1	1	0	1
Noncompliance with vaccination schedule (including wrong and unknown dates)	0	1	1	0	1
Non-compliance with blood sampling schedule (including wrong and unknown dates)	1	5	1	6	8
Essential Serological data Missing	4	8	22	15	33
Total eliminations from TVC	10	21	52	46	45
per-protocol cohort for immunogenicity (D21/D42)					
per-protocol cohort for persistence (D182/D203*/D364)	296	285	254	76	261
per-protocol cohort for safety	301	299	278	97	303

* GROUP B only
