

**Data extraction sheet for the systematic review on necrotizing fasciitis in childhood**

Journal	Year	Volume	Pages	First Author	Study type			Duration
Institution	Geographic region		NecFasc	Cases	Pediatric	Age	Sex	Race
Inclusion criteria: (Present)	Age group	Symptoms	Systemic illness		Risk factors		Case fatality	
Exclusion criteria: (Present)	Only adult data		Pediatric data not extractable			Language requirement met		
Incidence of NecFasc		Definition of population at risk			Case Fatality rate		Individual cases?	
Skin symptoms reported (with frequency)				Signs of systemic illness (with frequency)				
Microbes reported (with frequency)				Risk factors reported (with frequency)				
Body region involved (with frequency)				Outcome/Sequelae (with frequency)				
Quality assessment				Laboratory data				
Case number in statistical analysis				Other
