

Figure S3. Linkage disequilibrium (LD) across region. Pairwise LD matrix is shown in colorimetric form, using the D' and LOD metrics. Colors indicate: $D' = 1$ and $\text{LOD} \geq 2$ (red), $D' = 1$ and $\text{LOD} \leq 2$ (blue), $D' < 1$ and $\text{LOD} \geq 2$ (pink), $D' < 1$ and $\text{LOD} \leq 2$ (white).
