

Recruited to study (N=3234)

Pregnancy ended <20wks $n=14$
Termination/miscarriage >20wks $n=12$
Ineligible status identified after recruitment $n=12$
Lost to follow up $n=26$

Initial study population $n=3170$

BMI <25.0 $n=1742$
Preterm births $n=105$
Prelabour caesarean $n=138$
Missing lipids $n=2$

BMI ≥ 25.0
laboured at term $n=1183$

1st stage caesarean NOT for failure to progress
 $n=83$
2nd stage caesarean $n=64$

Final study population $n=1036$

Vaginal birth $n=840$

1st stage caesarean for failure to progress $n=196$
