

Table S2 Intraclass correlation coefficient analysis of the existing ultrasonic formulas in predicting foetal biometrics

Foetal biometrics	Intraclass correlation coefficient (single measure)	95% Confidence interval		F test with true value 0			
		Lower bound	Upper bound	Value	df1	df2	Sig
HC	0.957	0.943	0.968	67.704	126	252	.000
AC	0.996	0.995	0.997	738.785	126	252	.000
