

**Table S7** Two independent sample t-tests between ABW, EFW<sub>r</sub>, and EFW<sub>p</sub>

Sample size n = 38	Estimate for difference	DF	T-value	P-value
ABW – EFW <sub>r</sub>	20.5	73	0.23	0.815
ABW – EFW <sub>Model(1)</sub>	2.4	73	0.03	0.978
ABW – EFW <sub>Model(2)</sub>	-0.2	73	-0.00	0.998
ABW – EFW <sub>Model(3)</sub>	-1.6	73	-0.02	0.986
ABW – EFW <sub>Model(4)</sub>	-0.3	73	-0.00	0.997

\*The p-value < 0.05 indicates a significant difference
