

Persons with a referral of a GP/
other specialist to the outpatient
clinic of the Segal Cancer Centre

Patients contact the secretary to
make the first appointment

Secretary keeps a list of
new patients and their
first appointment

The oncologist/ hematologist/
surgeon sees the patient and plans
further investigation/ plans first
treatment / refers to another
specialist

Letter for doctor in the chart
with the aim of the study
and eligibility criteria and
the patient information
letter

Patient is booked for first treatment
on the treatment floor and often the
patient meet the nurse assigned to
him/her during treatment /patient is
booked for surgery

If patient is eligible, the
doctor asks if the patient
can be contacted by the
research team to explain
the study and doctor gives
the patient information
letter

Patient comes back for
treatment/surgery

Patient is contacted by a
member of the research
team, and if the patient
agrees to participate a
date and time for the first
interview is set
