

### Appendix III. “Data extraction «Intensive training- a systematic review”

**Primary author, year:**

**Country:**

**Reviewer:**

**Date:**

**Aim of the study:**

**Study population**

	All participants	Intervention group	Comparator (1)	Comparator (2)
N (number of participants)				
Age (specify)				
Gender (Femal/Male)				
CP spastic unilateral (left/right)				
CP spastic bilateral				
CP dyskinetic				
CP ataxic				
GMFCS level I-V				
MACS level I-V				
Other functional descriptions				
Additional CP related impairments				

**Comments:**

**Inclusion criteria:**

**Exclusion criteria:**

**Study interventions**

Type of intervention(s) described by authors (short description):

Intervention (I):

Comparator (C1):

Comparator (C2):

Intervention directed towards child, be specific:

Interventions directed towards environment, be specific:

**Setting**

	Intervention	Comparator (1)	Comparator (2)
Home			
Kindergarten/school			
Clinic/center			
Other			

**Comments:**

**Organisation of interventions**

	Intervention	Comparator (1)	Comparator (2)
Individual			
Group			
Incorporated into daily activities			

**Comments:****Involvement in training (describe the role; observer, facilitator, or performer)**

	Intervention (observer/facilitator, performed)	Comparator (1) (observer/facilitator, performed)	Comparator (2) (observer/facilitator, performed)
Parents			
Professionals			
Others			
Supervision of (y/n)			
Supervision of others			

**Comments:****Amount of intervention (describe the amount of training performed not according to protocol)**

	Intervention	Comparator (1)	Comparator (2)
Duration of intervention (wk/mo)			
Frequency of session/ wk or mo			
Duration of session (min/h)			
Hours/ week			
Frequency of task practicing (home/kinder)			
Hours/week			

**Comments:**

**Use of goals**

<input type="checkbox"/> Not reported	<input type="checkbox"/> Yes	Intervention	Comparator (1)	Comparator (2)
	General goals			
	Specific goals			
	Parent set			
	Therapist set			
	Shared goals			

**Comments:****Outcome** (activity and participation)

Outcome	Measurement scale	Scale range
1.		
2.		
3.		
4.		

**Comments (mention other outcomes described in the study):**

Drop out, describe:

**Results (present the results in the same order as the outcomes)**

	Intervention	Int n	Comparator (1)	Com1 n	Comparator (2)	Comp2 n
Outcome						
Measurement scale						
Baseline score						
Post treatment 1 (SD, p-value)						
Post- treatment 2 (SD, p-value)						
Post- treatment 3 (SD, p-value)						
Effect size- mean difference, adjusted diff (SD/SE)						
Effect size (CI, p-value)						

**Comments (as adjusted for):**

- No adverse effect reported
- Adverse effects, type
- Compliance
