

Assessed for eligibility ($n = 505$)

Ineligible ($n = 111$)*

Eligible ($n = 319$)

Not consented ($n = 114$)

Consented ($n = 205$)

Reasons why families did not consent: lack of time, not able to make baseline assessment, no child-minding for other siblings, wanted something different, not able to commit for the whole program

Randomised ($n = 205$)
