$$DALY = YLL + YLD$$

$$YLL = death \times life\ expectancy$$

mortality data	main data source	data source for adjustment
number of deaths	VR	SPC
causes of death (COD)	VR	VA

$$YLD = incidence \times DW \times duration$$

morbidity data	main data sources on incidence or prevalence	data source for adjustment
communicable diseases	Disease Notification(3 years average)	Health Welfare Survey (HWS)
non-communicable disease	Health Examination Survey (HES)	-
	hospital admission data	HWS
	HWS	-
	disease registry	-
injury	hospital admission data	HWS
