

Questionnaire of MA users

Informed consent: *I am Dr. X, working for the XX. I am doing a study on health problem of methamphetamine users. I am going to give you information and invite you to be part of this research. STD and AIDS have been spreading among methamphetamine users. We want to find ways to stop this from happening. We believe that you can help us by telling us what you know about methamphetamine, and about your concepts and behaviours related to STD and AIDS. This study will involve your participation in an interview that will take about half an hour. Your participation in this research is entirely voluntary. It is your choice whether to participate or not. We also want to know how serious STD and AIDS are spreading in this population, so after the interview you are welcome to take an examination in our clinic. All the services provided are free and you can come anytime. If you choose not to participate all the services you receive at our clinic will continue and nothing will change. We are asking you to share with us some very personal and confidential information, and you may feel uncomfortable talking about some of the topics. During the interview, if you do not wish to answer any of the questions during the interview, you may say so and I will move on to the next question. There will be no direct benefit to you, but your participation is likely to help us find out more about how to prevent and control STD and AIDS in the population. The information recorded is confidential, and no one else except our work staff will access to the information documented during your interview. If you have any questions, you can ask us now or later. If you wish to ask questions or have an examination later, you may contact Dr. Wang Zhenhong, the Third People's Hospital of Chengyang, his telephone number is 13853289000.*

A--registration

Registration Number

A01 Date of interview year month date

A02 Sites of recruitment

☒ Nightclubs ☒ KTVs ☒ Bars ☒ Bath centres ☒ STD clinic ☒ hotels ☒ tea houses ☐

B--General information

B01 Sex ☒ Male ☒ Female ☐

B02 Birthday year month

B03 Marital status ☒ Single ☒ Married ☒ Divorced ☐

B04 Ethnicity ☒ Han ☒ Korean ☒ Others ☐

B05 Education

①Elementary school ②Middle school ③High/technical school ④College or above ☐

B06 Residency ①Permanent residents ②Mobile population ☐

B07 Employment

① Self-employed ②Commercial service ③Unemployed ④Others ☐

C-- Perception of MA use

C01 Do you think MA use is as common as smoking? ①Yes ②No ③Dot not know ☐

C02 Can MA enhance sexuality? ①Yes ②No ③Dot not know ☐

C03 Does MA have the function of anti-inebriation? ①Yes ②No ③Dot not know ☐

C04 Can MA relieve pain? ①Yes ②No ③Dot not know ☐

C05 Is MA addictive? ①Yes ②No ③Dot not know ☐

C06 Are you addicted to MA? ①Yes ②No ③Dot not know ☐

C07 Did it occur to you to abstain from MA? ①Yes ②No ☐

C08 Do you want to have a try to abstain from MA? ①Yes ②No ☐

D- Perception of STD/AIDS

D01 Have you ever heard of syphilis? ①Yes ②No ☐

D02 Do you know the transmission routes of syphilis? ①Yes ②No ☐

D03 Do you know the transmission routes of HIV? ①Yes ②No ☐

D04 Can HIV be transmitted by eating together? ①Yes ②No ③Dot not know ☐

D05 Do you know the risk of multiple sex partners? ①Yes ②No ☐

D06 Can HIV infection be identified by appearance? ①Yes ②No ③Dot not know ☐

D07 Can STD/AIDS be prevented by using condom? ①Yes ②No ③Dot not know ☐

E--Behaviours of MA use

- E01 Did you use other drugs except for MA? ☒ Yes ☐ No ☐
- E02 How old was you when you first used MA? ☐☐
- E03 How many years have you used MA? ☐☐
- E04 How many times have you used per week in average in the past year? ☐☐
