

**Additional Table 1. Multivariate Analysis<sup>a</sup> of Asthma and conjunctivitis incidence<sup>b</sup>. Results are stratified by age category and gender.**

<u>Stratification</u>	<u>Combined<sup>c</sup> RR (95% CI)</u>
<b>Asthma</b>	
Overall	3.87 (3.14-4.77)
Males	4.86 (3.61-6.55)
Females	3.00 (2.35-3.83)
≥20-49 years	2.25 (1.75-2.90)
≥50 years	3.86 (3.03-4.66)
<b>Conjunctivitis</b>	
Overall	2.90 (2.51-3.35)
Males	3.06 (2.45-3.84)
Females	2.65 (2.22-3.18)
≥20-49 years	2.26 (1.96-2.61)
≥50 years	2.93 (2.34-3.18)

<sup>a</sup> Adjusted for time trend.

<sup>b</sup> Age and gender standardized according to census population figures for 2010.

<sup>c</sup> Including high and intermediate exposure zones, control exposure zone as reference.

RR risk ratio; CI confidence interval.
