*This is a transcript of the computer-assisted self-interview (CASI) for the Men's Network Study (MeNS) administered to participants in the venues where we interviewed. The skip patterns, presentation and structure of the interview are not fully represented in paper form. The below questions were in the complete set that were programmed into the CASI. Participants could decline to answer any questions except confirmation of participation. Please assume logical skip patterns based on responses to previous questions. Names of venues used were provided to us in confidential street interviews; participants were informed that names would not be published, therefore all name lists in the CASI have been removed on this paper form. In order to reduce the document length, instructions to participants have also been removed in most instances.*
