9	info1	<p>Information Sheet for Participation in a Research Study</p> <p>UCONN IRB Approved 23-Aug-2019</p> <p>Principal Investigator: Seth Kalichman, PhD Title of Study: KISS Surveys Sponsor: National Institute of Mental Health</p>	descriptive
10	info2	<p>You are invited to participate in a research study. This form includes information about the study and contact information if you have any questions.</p> <p>The purpose of the KISS Survey is to develop new questionnaires to help us better understand the sexual health experiences of people living in the southeastern USA. You will be asked to complete two electronic surveys on your computer, phone or tablet. You will be asked to complete the surveys on your own, in the privacy of your own space. The surveys contain sensitive and personal questions about your health, personal social experiences, family and social relationships, sex life, use of alcohol and other substances.</p> <p>None of this information is stored on your electronic device and your name, or any other identifying information, will not be connected to your surveys. While we hope you will complete every question, but you do have the right to refuse to complete any particular question and you can stop your participation at any time before or during the surveys without any cost or penalty to you.</p>	descriptive
11	info3	<p>Survey 1</p> <p>You will be sent a link for Survey 1 either via a text or email. It will take approximately 30-60 minutes to complete the survey. You will be paid \$25 via PayPal or an eGift Card within 24 hours (week days) of completion of the survey. You may select either method of payment.</p>	descriptive
12	info4	<p>Survey 2</p> <p>After you have completed Survey 1 and have been paid, you will receive a second link for Survey 2 via an email or text. It will take approximately 30-60 minutes to complete the survey. You will be paid \$35 via PayPal or an eGift within 24 hours (week days) of completion of the Survey 2. You may select either method of payment.</p>	descriptive

13	info5	<p>We ask that you complete each survey as you get them, in a single sitting, meaning that once you start a survey you finish it without leaving it for more than 15 minutes. If the survey is left idle for more than 15 minutes, the link will close and you will need to start from the beginning.</p> <p>This study should take less than 3-hours of your time to complete both surveys and all study procedures. Your participation will be anonymous, meaning your name or any other identifying information will not be collected as part or in conjunction with your survey responses.</p>	descriptive
14	info6	<p>You will not be contacted again in the future, unless you expressly wish to know about future surveys and study opportunities. At enrollment, you will be asked to provide your email and phone number in order that you may receive the surveys and eGift cards. The list linking your email and gift card will not be linked to your data. Your email is not connected in any way to your survey responses.</p> <p>Some of the questions in the survey are sensitive in nature. As a result, you may become uncomfortable or upset when taking the survey. You can choose to skip any question that you do not want to answer. We ask that you complete the surveys by answering the questions honestly and accurately.</p> <p>There is no direct benefit to you from this research. However, the benefits of your participation may impact your community by helping to develop new health and well-being programs for people in your community.</p>	descriptive
