

Clinical suspicion of diverticulitis

```
graph TD; A[Clinical suspicion of diverticulitis] --> B[For diagnosis and inclusion:  
acute US or CT  
For staging:  
CT within 24 hours]; B --> C[Hinchey 1a or 1b  
(uncomplicated diverticulitis)]; C --> D[Inclusion DIABOLO trial]; D --> E[Conservative strategy WITH antibiotics]; D --> F[Liberal strategy WITHOUT antibiotics];
```

For diagnosis and inclusion:
acute US or CT
For staging:
CT within 24 hours

Hinchey 1a or 1b
(uncomplicated diverticulitis)

Inclusion DIABOLO trial

Conservative strategy WITH
antibiotics

Liberal strategy WITHOUT
antibiotics
