

Table 3. Plasma-estradiol in the two admissions

| | Mean \pm SD |
|----------------------------------|------------------------------|
| | p-estradiol (nmol/l) |
| "low p-estradiol" - 1.admission | 0.31 \pm 0.08 (0.23-0.43) |
| "high p-estradiol" - 2.admission | 0.95 \pm 0.25 (0.69-1.33)* |

Values are mean \pm SD. *Low/high: $p < 0.001$
