

Cluster	Components of value assessment (alphabetical by cluster)	Weight	Synthesized available evidence	Score	Evaluator's comments	Value contribution
Quality of evidence						
Q1	Adherence to requirements of decisionmaking body		Quality Matrix			
Q2	Completeness and consistency of reporting evidence					
Q3	Relevance and validity of evidence					
Disease impact						
D1	Disease severity					
D2	Size of population affected by disease					
Intervention						
I1	Current clinical guidelines					
I2	Current interventions' limitations					
I3	Improvement of efficacy/effectiveness					
I4	Improvement of safety & tolerability					
I5	Improvement of patient reported outcomes, convenience & adherence					
I6	Public health interest					
I7	Type of medical service					
Economics						
E1	Budget impact on health plan					
E2	Cost-effectiveness of intervention					
E3	Impact on other spending					
Total			Value estimate (sum of all value contributions; MCDA linear model)
