Problem Definition

- Impact of IPV on NFP outcomes (NFP RCTs)
- NFP Home Visitor Survey
- Client Information System data

个

NFP Nurse Competencies

- Theory application
- Use of evidence & clinical data to guide practice
- Client-centered care
- Therapeutic relationship
- Reflective practice

Existing Evidence

NFP Visit Guidelines

NFP-IPV Intervention

Qualitative Case Study (this report)

- Problem, Needs and Current Practice Analyses
- Four (4) NFP sites, including:
 - 20 clients
 - 27 nurse home visitors
 - 4 supervisors
 - 18 community stakeholders

Feasibility Testing (2010-2011)

Randomized Controlled Trial (initiated 2011)
