Title: The effects of auditing on patient safety in hospital care *Results in a Dutch hospital at ward level*

Registration number: 2011/278

Dear mrs. Hanskamp-Sebregts,

On behalf of the research ethics committee of the Radboud University Nijmegen Medical Centre I hereby let you know that the abovementioned study has been carried out in the Netherlands in accordance with the applicable rules concerning the review of research ethics committees and informed consent.

Best regards,
On behalf of the CMO Regio Arnhem-Nijmegen

Dr. F. Huysmans, Chairman
