

Analytical hierarchy: iterative steps from raw data to informing policy and practice

Raw data

- *Closely reading transcripts*

- *Identifying themes/indexing*
- *Coding/labelling/charting data*

- *Summarizing/synthesizing data*
- *Identifying dimensions & categories*
- *Detecting patterns/clustering*

- *Seeking interpretations*

Inform policy/practice

Analytical process

Data management

Descriptive accounts (what)

Explanatory accounts (why)
