

Topic: The term chronic and different way GP and patient might interpret

Quote: "What do you think about the words chronic kidney disease, what do they make you feel?"

Person 1: Frightening.

Person 2: Well it is frightening because at our age we know chronic as being...

Person 3: Hard, bad.

Person 4: The end of the road really don't we.

Person 5: Chronic is, you know, you're critical, sort of, really, you're at a stage where, you know, things can go vastly wrong"
