Key: Colors depend on # of commodities fulfilling indicator condition for each country. Green: > 75% of the commodities for that indicator; yellow 60-75% of the commodities; red: <60% of the commodities. Where information was available for the full set of commodities there is a * in the cell; where information was available for less than the full number of commodities the number was specified. Where there was no data the cell was left white. Health outcome: mortality gap was shaded red if over 60% and yellow if between 25 and 60%
