Script for the Interviewer

- The purpose of this questionnaire is for us to understand the amount of time and money that you had to invest in [Child's Name].
- We are interested in all expenses including those spent on doctor's visit, hospital admissions and tests, medicines, education and caretaking for [Child's name].
- This questionnaire usually takes 15 minutes. I will be asking you questions and it would be really helpful if you could keep any medical file/ papers that you have for [Child's Name] ready so we can refer to it. You can also show me any medicines that you are giving to [Child's Name] so that I can accurately record the names.
- I am interested in all the information you can give me which pertains to the past 6 months.
- If you are not able to understand the questions I am happy to clarify it for you.
- · We can take a break in between whenever you feel necessary.
