

Interprofessional Staff Trust Survey

INSTRUCTION:

In all of the following questions, we ask you to consider a scenario in which a health practitioner (from another profession/discipline) is **assessing** your patient, and where the **findings of that assessment will directly impact** on how you will treat that patient when you next see the patient.

1. What professional group do you belong to?

- Medical
- Nursing
- Allied Health and Assistants
- Other

2. How much would you trust another health professional to look out for the patient's interests?

0 _____ 1 _____ 2 _____ 3 _____ 4 _____ 5 _____ 6 _____ 7 _____ 8 _____ 9 _____ 10

0 – not at all

10 - completely

3. How much would you trust another health professional to be open and discuss their assessment findings with you?

0 _____ 1 _____ 2 _____ 3 _____ 4 _____ 5 _____ 6 _____ 7 _____ 8 _____ 9 _____ 10

0 – not at all

10 - completely

4. How much would you trust another health professional to tell you the truth about their findings?

0 _____ 1 _____ 2 _____ 3 _____ 4 _____ 5 _____ 6 _____ 7 _____ 8 _____ 9 _____ 10

0 – not at all

10 - completely

5. How much would you trust another health professional to do what needs to be done (e.g. complete an assessment) without errors?

0 _____ 1 _____ 2 _____ 3 _____ 4 _____ 5 _____ 6 _____ 7 _____ 8 _____ 9 _____ 10

0 – not at all

10 - completely

Remember: we ask you to consider a scenario in which a health practitioner (from another profession/discipline) is **assessing** your patient, and where the **findings of that assessment will directly impact** on how you will treat that patient when you next see them.

6. How much would you trust another health professional to protect private patient information?

0 _____ 1 _____ 2 _____ 3 _____ 4 _____ 5 _____ 6 _____ 7 _____ 8 _____ 9 _____ 10

0 – not at all

10 - completely

7. How much would you trust another health professional to do what is best for the patient?

0 _____ 1 _____ 2 _____ 3 _____ 4 _____ 5 _____ 6 _____ 7 _____ 8 _____ 9 _____ 10

0 – not at all

10 - completely

8. How much would you trust another health professional to reliably do an assessment that has implications for what you will do when you next see the patient?

0 _____ 1 _____ 2 _____ 3 _____ 4 _____ 5 _____ 6 _____ 7 _____ 8 _____ 9 _____ 10

0 – not at all

10 - completely

9. How much would you trust another health professional to see the patient in a timely way when they are admitted to the ward?

0 _____ 1 _____ 2 _____ 3 _____ 4 _____ 5 _____ 6 _____ 7 _____ 8 _____ 9 _____ 10

0 – not at all

10 - completely

Still thinking about a scenario in which a health practitioner (from another profession/discipline) is **assessing** your patient, and where the **assessment findings will impact** on how you will treat that patient when you next see them:

10. Thinking about a context in which health practitioners work across disciplines (e.g., nurses assessing some tasks that doctors might usually perform), how much would you trust the Mater to support such a model of health service delivery?

0 _____ 1 _____ 2 _____ 3 _____ 4 _____ 5 _____ 6 _____ 7 _____ 8 _____ 9 _____ 10

0 – not at all

10 - completely

11. Thinking about a context in which health practitioners work across disciplines (e.g., nurses assessing some tasks that doctors might usually perform), would you agree to such a model of care/assessment at the Mater?

0 _____ 1 _____ 2 _____ 3 _____ 4 _____ 5 _____ 6 _____ 7 _____ 8 _____ 9 _____ 10

0 – not at all

10 - completely

12. Do you believe someone who is also trained in the transdisciplinary assessment (known as the multidisciplinary assessment on the AMU) would arrive at the same result as you?

Yes No Unsure

Can you explain why you chose the above answer?

A final open-ended opportunity for comment:

Please provide us with your thoughts about the idea of, or potential for, transdisciplinary care/assessment at the Mater:
