

Representative western blotting image of GAP43 in the hippocampus of 5xFAD mouse

Representative western blotting image of SNAP25  
in the hippocampus of 5xFAD mouse

Representative western blotting image of Synaptotagmin 1 in the hippocampus of 5xFAD mouse

Representative western blotting image of Neurogranin in the hippocampus of 5xFAD mouse

Representative western blotting image of GAPDH in the hippocampus of 5xFAD mouse

Representative western blotting images of protein levels of GAP43 and SNAP25 in treated 5xFAD mouse brains

Representative western blotting image of protein levels of GAP43 and SNAP25 in EV-TNGS-treated hippocampal tissues in 5xFAD mice.

Representative western blotting image of protein levels of TSG101, CD63 and Alix in EV-TNGS.
