

Supplementary Figure 1. MND1 expression and subgroup survival analysis in various cancers. **A.** Intersection of differential genes of TCGA, GSE70880 and GSE99416 on the left. Intersection of differential genes and DDP- drug resistance (GSE122130) on the right; **B.** Based on the TCGA database, the expression of MND1 in various cancer types was detected (Green is the adjacent tissue and red is the cancerous tissue); **C.** OS prognosis of different MND1 expression in pathological stage and TNM stage in 159 GC patients.
