

Total number of patients included in RCTs n=6,179

AE analysis
N=6,179 patients

TEAE analysis
N=3,334 patients

8,542 AE

6,294 AE

3,943 TEAE

ASAQ
N=3,113 patients
3,634 AE

Comparator
N=3,066 patients
4,908 AE

ASAQ
N=1,281 patients
2,426 AE

Comparator
N=2,053 patients
3,868 AE

ASAQ
N=1,281 patients
1,493 TEAE

Comparator
N=2,053 patients
2,450 TEAE

AE = any event (sign/symptom) occurring after first drug intake (irrespective of whether present at enrolment or not) Irrespective of causality

TEAE = event (sign/symptom) occurring after first drug intake that was not present or was less intense at enrolment Irrespective of causality
