

Design elements common to both sheets include space for one strength response matched to each active ingredient.

Ingredient strengths may be presented as base or in salt form on medicine packaging. A question is included to identify strengths presented for salts, so that they can be correctly accounted for during analysis.

### TABLET, SUPPOSITORY & GRANULE DRUG AUDIT SHEET (TSG)

OUTLET ID: \_\_\_\_\_

Spaces for up to three active ingredients to be recorded for any one product.

Product number [0_0_1]	1. Generic name ARTEMETHER [LUMEFANTRINE] [LUMEFANTRINE] [LUMEFANTRINE] Do not write here	2. Strength [0_2_0] [0] mg [1_2_0] [0] mg [ ] [ ] mg [4_0]	3. Is this the base? [1] 1 = Yes [1] 0 = No 8 = Don't know  If no, specify excipient: [ ]	4. Dosage form 1 = Tablet 2 = Suppository 3 = Granule [1]	5. Brand name COARTEM ADULTS 35 kg+	6. Manufacturer NOVARTIS	7. Country of manufacture USA	8. Is this antimalarial expired? 1 = Yes 0 = No 8 = Don't know [0] Do not write here
9. Package size (Fill in number)  There are a total of [0_0_1_2_1_4] tablets / suppositories / granule packs in each (select package type):  1 = Package 2 = Pottin [1]	10. Is this product a fixed-dose combination (FDC)? 1 = Yes 0 = No 8 = Don't know  [1]	11. Amount sold/distributed in the last 7 days to individual consumers (Record # of packages/ tins described in Q7 OR record the total # of tablets / suppositories/ granule packs sold)  This outlet sold [0_0_1_8] packages in the last 7 days OR This outlet sold [9_1_9_5] tablets/ suppositories or granule packs in the last 7 days  Not applicable = 995; Refused = 997; Don't know = 998	12. Has this AM been stocked out in the past 3 months? 1 = Yes 0 = No 8 = Don't know [0]	13. Retail selling price [0_0_1_2_1_4] tablets, suppositories or granule packs cost an individual customer  Free = 00000; Refused = 99997; Don't know = 99998	14. Wholesale purchase price For the outlet's most recent wholesale purchase [0_0_1_2_1_4] tablets, suppositories or granule packs cost  Free = 00000; Refused = 99997; Don't know = 99998	15. Comments		
Tablet Audit Sheet [0_1] of [0_4]								

A question is included to determine if a medicine is a fixed-dose combination (i.e. has 2 or more active ingredients combined in a single tablet, suppository or granule pack).

Consider the TSG and NT cells for volumes. Sales volumes for loose tablets are usually given in terms of tablets, whilst volumes for packages are usually given in terms of packs. The TSG sheet thus includes spaces for both, allowing the field worker to be led by the respondent and removing the need for calculations. By contrast, the corresponding NT cell only requires 1 option.

The cells used to collect price information are able to capture responses that range from 1 tablet to 99 tablets. This allows the interviewer to record the price as specified by the respondent, without needing to convert to a common number of tablets (e.g. loose quinine prices can be recorded per tablet, per 10 tablets, or per 42 tablets without the need for calculation).
