

Additional file 2: Alternative presentation of experimental hut results.

Table 2.1 Summary table. Summary of results for *An. gambiae* s.l., *An. funestus* and non-anopheline genera of the experimental hut trial, following the analysis and analysis used in Tables 1 – 2 in [10].

Species	Material	Treatment	Total collected	% Caught in veranda (95%CI)	% Bloodfed (95%CI)	% Mortality (95%CI)	% Corrected mortality (95%CI)
An. gambiae	Cement	Untreated	4776	38a (37-39)	80a (78-81)	18a (17-19)	-
		CS AA	2822	47b (45-49)	74b (73-76)	65b (64-67)	58 (56-60)
		CS B	2434	45b (43-47)	71bc (70-73)	75c (73-77)	70 (68-72)
		CS BM	3893	46b (45-48)	79a (77-80)	75c (74-77)	70 (68-72)
		Actellic 50 EC	3041	45b (43-47)	80a (78-81)	57d (55-59)	48 (45-50)
	Mud	ICON 10 CS	5019	73c (72-74)	70c (69-72)	44e (43-46)	33 (31-35)
		Untreated	5710	40ab (39-41)	70a (69-71)	16a (15-17)	-
		CS AA	4569	41ab (40-43)	70a (69-72)	53b (51-54)	43 (42-45)
		CS B	3893	41ab (40-43)	75b (74-76)	66c (65-68)	60 (58-61)
		CS BM	4337	39ab (38-41)	75b (73-76)	66c (65-67)	60 (58-61)
An. funestus	Cement	Actellic 50 EC	3694	43b (41-44)	75b (73-76)	53b (51-55)	44 (42-46)
		ICON 10 CS	5959	65c (63-66)	62c (60-63)	34d (33-36)	22 (20-23)
		Untreated	341	26a (22-31)	86a (82-90)	34a (29-39)	-
		CS AA	104	25a (17-34)	70bc (60-79)	88b (81-94) 83bc (73-	83 (73-91)
		CS B	83	27a (17-37)	72bc (61-82)	90)	75 (62-86)

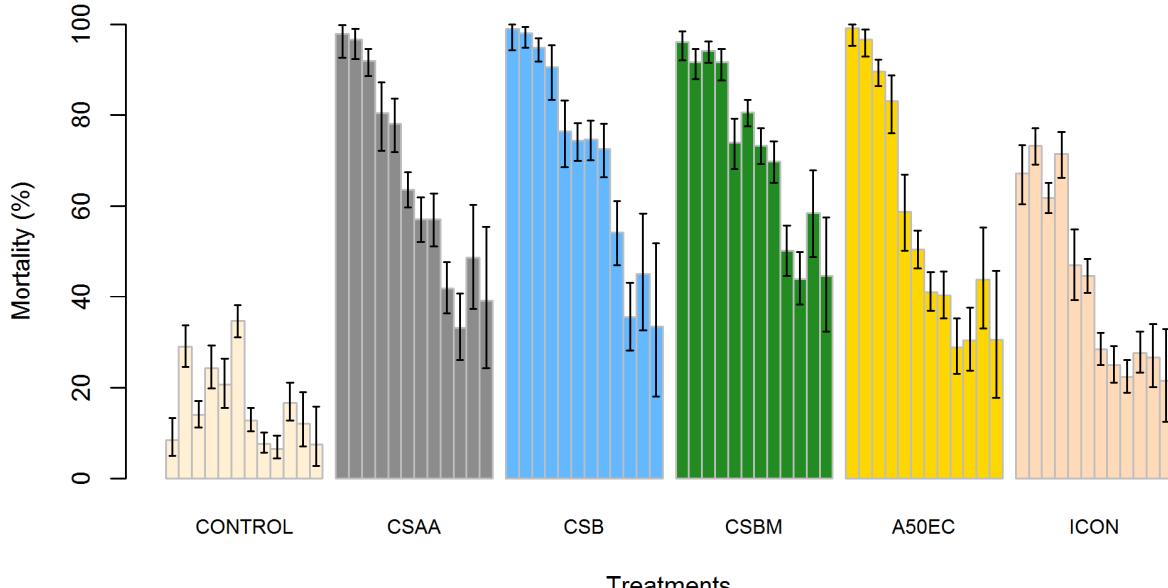

Figure 2.1. Crude mortality of *An. gambiae* s.l. in cement huts by month post treatment.

The first month is on the left. Error bars show 95% confidence intervals. This presentation allows comparison of the results of this trial with those presented in [10].

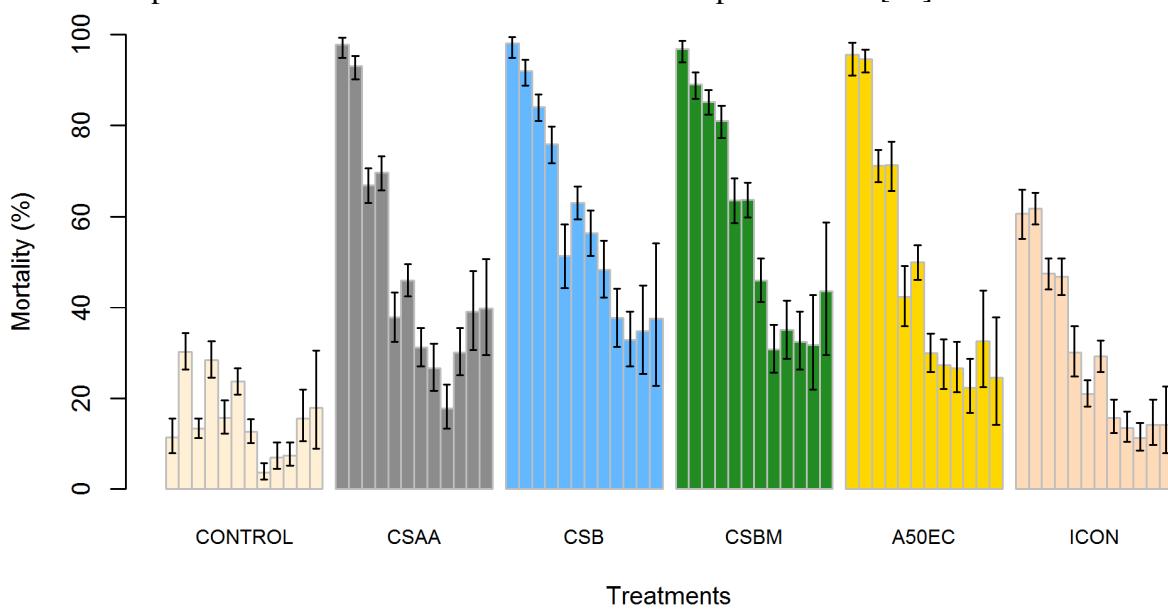

Figure 2.2. Crude mortality of *An. gambiae* s.l. in mud huts by month post treatment.

See Figure 2.1 for legend.

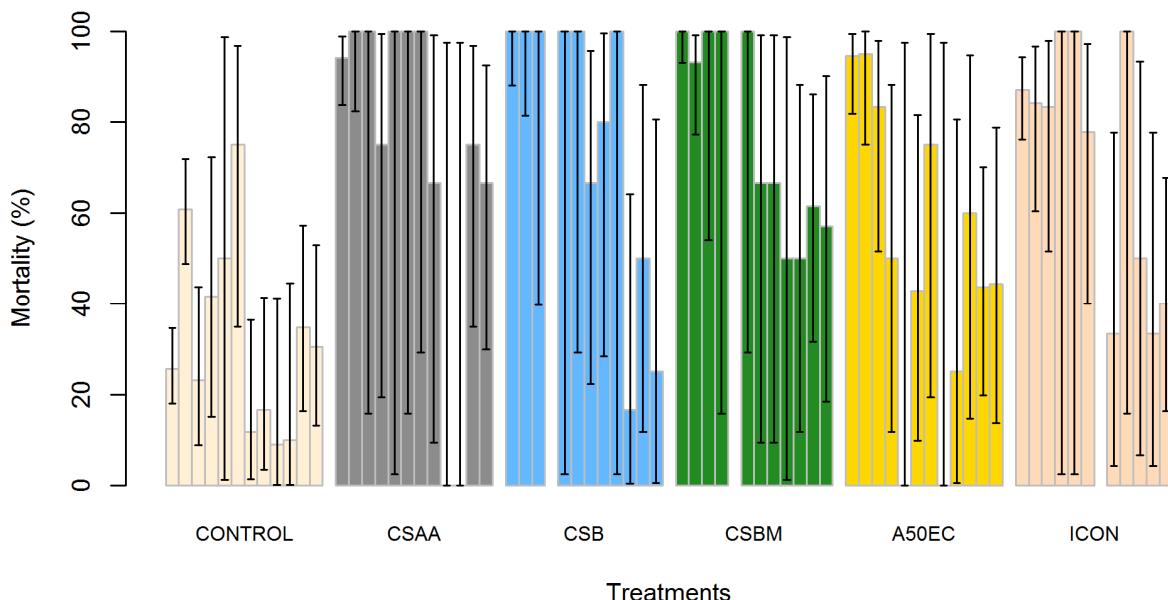

Figure 2.3. Crude mortality of *An. funestus* in cement huts by month post treatment. See Figure 2.1 for legend.

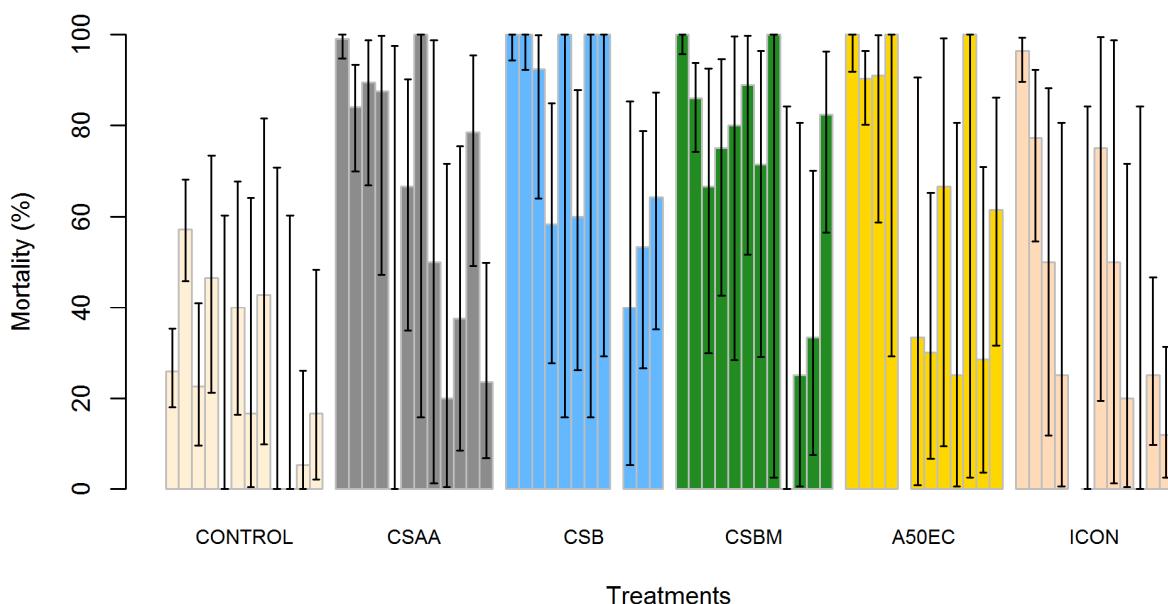

Figure 2.4. Crude mortality of *An. funestus* in mud huts by month post treatment. See Figure 2.1 for legend.

Mortality of *An. funestus* in mud huts

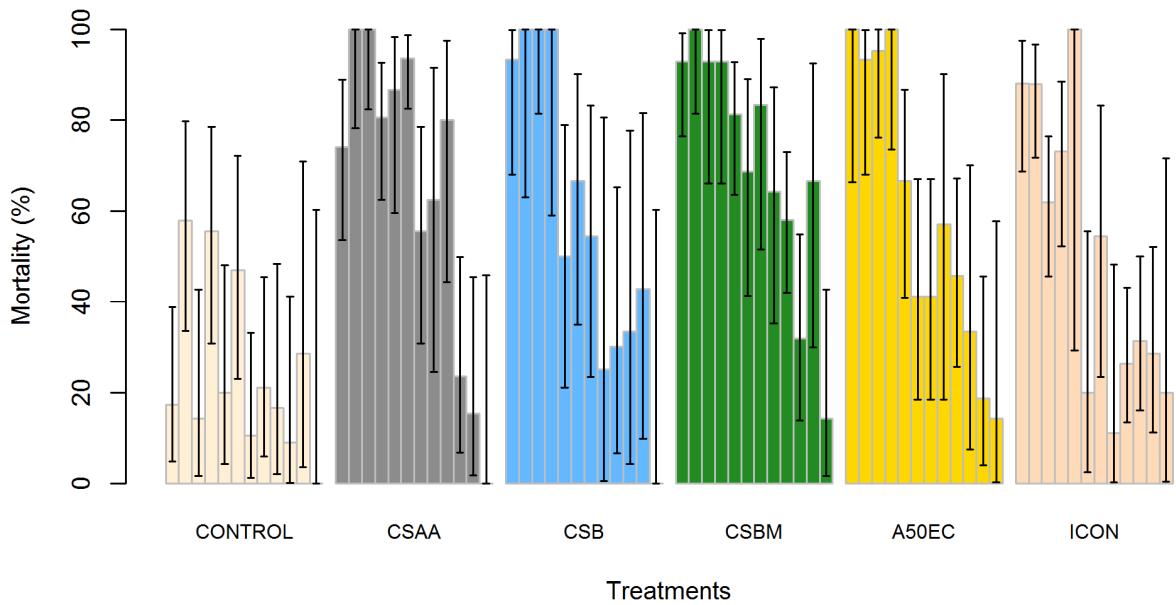

Figure 2.5. Crude mortality of anophelines other than *An. gambiae* or *An. funestus* in cement huts by month post treatment. See Figure 2.1 for legend.

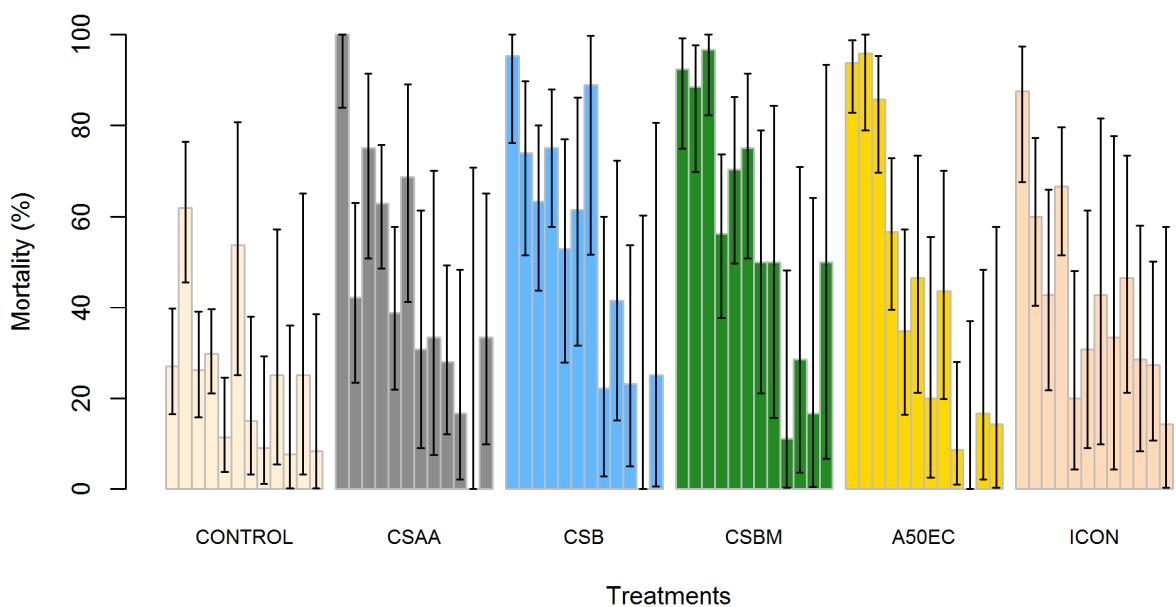

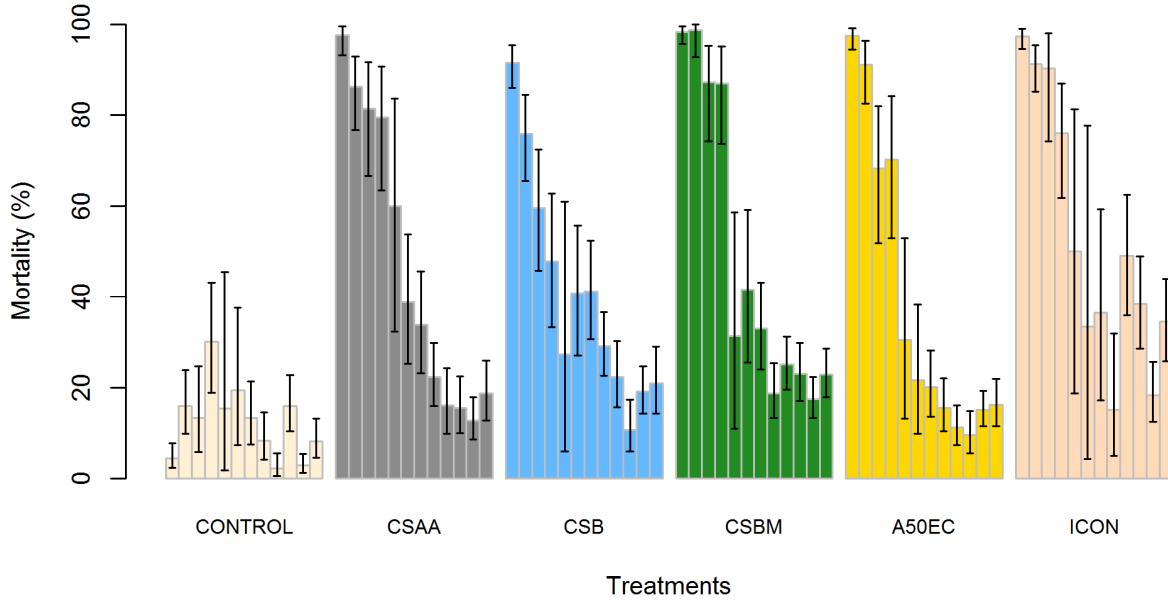

Figure 2.6. Crude mortality of anophelines other than *An. gambiae* or *An. funestus* in mud huts by month post treatment. See Figure 2.1 for legend.

Mortality of non-anopheline genera in cement huts

Figure 2.7. Crude mortality of non-anopheline taxa in cement huts by month post treatment. See Figure 2.1 for legend.

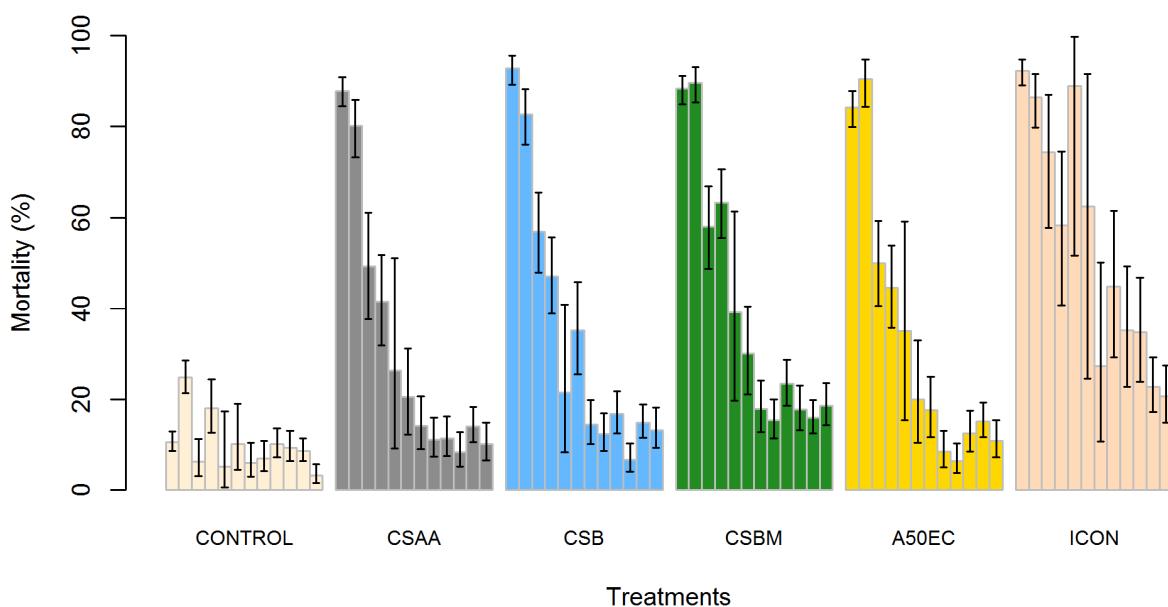

Figure 2.7. Crude mortality of non-anopheline taxa in mud huts by month post treatment. See Figure 2.1 for legend.
