Q1 ***Study Site*** **Consent to Participate in Research** Survey **Study Title:** Practitioner
- Immigration Law

Principal Investigator: Patricia Lebensohn, MD

You are being asked to participate in a research study. Your participation in this research study is voluntary and you do not have to participate. This document contains important information about this study and what to expect if you decide to participate. Please consider the information carefully. Feel free to ask questions before making your decision whether or not to participate. The purpose of this study is to ask practitioners about current care and privacy of detained and undocumented patients. Requirements of the study include taking a short anonymous survey, estimate 5 minutes. There are no expected risks to you as a result of participating in this study. You will not benefit directly from participating in this study. If you provide identifying information, your name will not be used in any report. Identifiable research data will be encrypted and password protected. Your responses will be assigned a code number. The list connecting your name to this code will be kept in an encrypted and password protected file. Only the research team will have access to the file. When the study is completed and the data have been analyzed, the list will be destroyed. The information that you provide in the study will be handled confidentially. However, there may be circumstances where this information must be released or shared as required by law. The ***Study Site*** Institutional Review Board may review the research records for monitoring purposes. For questions, concerns, or complaints about the study you may contact **Patricia Lebensohn, MD at ***-***-******. For questions about your rights as a participant in this study or to discuss other study-related concerns or complaints with someone who is not part of the research team, you may contact the Human Subjects Protection Program at ***-***-**** or online at ***study site website***. **Signing the consent form**

I have read (or someone has read to me) this form, and I am aware that I am being asked to participate in a research study. I have had the opportunity to ask questions and have had them answered to my satisfaction. I voluntarily agree to participate in this study. I am not giving up any legal rights by signing this form. I will be given a copy of this form (attached to this question). **By clicking here I agree to participate:**
