

Aglient, Human CpG Island Chip on chip 244k array , on 5 primary ALL samples

237,220 probes, 27,800 CpG islands

237,220 probes

Removed probes methylated 0,1,2 times

9304 probes

Removed probes not labelled 'Promoter'

2465 probes

Removed unidentified regions and microRNAs

2022 probes/1086 genes

Removed genes with only one promoter probe

398 genes
