

A

$$\text{Ratio IdU / CldU} = \frac{\text{IdU track size}}{\text{CldU track size}}$$

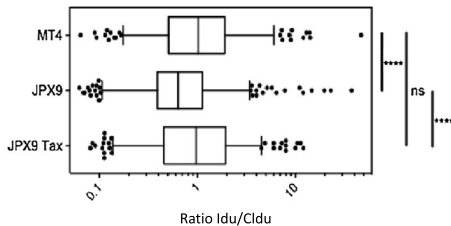

CldU IdU IdU CldU

IdU track < CldU track
= smaller ratio

IdU track > CldU track
= higher ratio

Acceleration and deceleration of replication forks

B

CldU IdU IdU CldU

Labelled region

Labelled region

Distance center to center = distance between centers of two different labelled regions

Distance center to center
