

1. Compilation of a list of potential interventions

based on

- a. Comprehensive review of interventions reviewed by the Cochrane Collaboration or recommended by the US Preventive Services Task Force or The US Task Force for Community Preventive Services
- b. Ad hoc review of other reviewing agencies, particularly the UK's National Institute for Clinical Excellence, the US Public Health Services, and the scientific literature
- c. Innovative ideas suggested by Committee members

2. Modification of list based on local needs and prevailing social climate

3. On the basis of list, creation of broad groupings of categories which serve as the basis for comprehensive plan

4. Refinement of plan by comparing it with existing comprehensive tobacco control plans
