

How important are these criteria in deciding on reimbursement?

Disease severity

Size of the population

Improvement of efficacy/effectiveness

not important very important

not important very important

not important very important

Rank the criteria based on their importance in deciding on reimbursement

Disease severity

Size of population

Improvement of efficacy/ effectiveness

Rank:

1

3

2

Allocate 100 points over the criteria to reflect relative importance in deciding on reimbursement

Disease severity

Size of population

Improvement of efficacy/ effectiveness

Points:

50

20

30

Which of each of these two criteria is more important in deciding on reimbursement?

Disease severity

9 8 7 6 5 4 3 2 1 2 3 4 5 6 7 8 9

Size of population

Disease severity

9 8 7 6 5 4 3 2 1 2 3 4 5 6 7 8 9

Improvement of efficacy/ effectiveness

Size of population

9 8 7 6 5 4 3 2 1 2 3 4 5 6 7 8 9

Improvement of efficacy/ effectiveness

Consider these criteria. Which criterion is most important in deciding on reimbursement? And which is least important?

Disease severity

Size of the population

Improvement of efficacy/effectiveness

Most important:

Least important:
