

Copenhagen, DD.MM.YYYY

Dear Colleague,

Within the last calendar month we have not detected an external quality assessment analysis for haemoglobin or glucose from your practice point-of-care equipment.

Execution of external quality assessment analysis is important for improving the quality of point-of-care testing and is a prerequisite for receiving fees for this service.

Apply number XXXXXX-XXXX for ordering external quality assessment analysis in the WebQuality system. For questions, please contact our telephone hotline: XXXXXXXX.

If you do not perform point-of-care testing for haemoglobin or glucose, please disregard this message.

Yours sincerely,
Niels Mosbæk,
Director, CGPL
