

diagnosis	[n] patients with main diagnosis [n] of whom had multiple pathologies		[n] coincidences with accessory pathologies											[n] main diagnosis + [n] accessory path.								
			II		III																	
			epileptic state	epileptic seizures	cardiogenic syncope	cardiogenic shock	respiratory insufficiency	exsiccosis	hepatic encephalopathy	hyperosmolar/ketoacidotic coma	hypoglycemia	hyponatremia	uremia		hypothermia	septic encephalopathy	alcohol intoxication	opiate/opioid (+ other) intox.	benzodiazepine (+ other) intox.	psychiatric medication intox.	aortic dissection/bleeding	
intracranial hemorrhage	sub-tentorial	21	6	1	3			3	1												21	
	primarily intraventricular	2	1																			2
	supra-tentorial, intracerebral	80	15	1	9			5	1												80	
	supra-tentorial, subarachnoid	26	10			4	1	1	4						1						26	
	supra-tentorial, subdural	31	12	5	3			3		1					4						31	
	supra-tentorial, combined	30	11	2	4			2			2	1			1						30	
I infarction	basilar artery occlusion	26	3					2	1												26	
	sub-tentorial, cerebellar	5	2						1					1		1					5	
	supra-tentorial, (bi-)thalamic	6	0																		6	
	supra-tentorial, middle cerebral artery	58	29	5	10			1	5	11				1	4				1		58	
venous occlusion	sinus thrombosis	1	1					1													1	
PRES	PRES	5	4	3	1																5	
inflammation	meningo-encephalitis	15	9					3	5				2	5							15	
	aseptic encephalitis	7	2			2								1							7	
tumor	focal edema/occlusive hydrocephalus	5	3	2	1			1													5	
	first diagnosis of solid tumor	12	10	7	3			1													12	
II epilepsy	epileptic state	94	28					1	22	5			1	5	1						123	
	epileptic seizures	94	20					2	12	8			1	3	2	1					163	
neuro-degenerative disease	LOC in neuro-degenerative disease	2	0																		2	
	akinetic crisis (pseudocoma)	2	1					1													2	
psychiatric disease	dissociative state (pseudocoma)	21	0																		21	
syncope	non-cardiogenic syncope	2	0																		2	
	cardiogenic syncope	8	2							1				1	2						9	
cardiac/pulmonary	cardiogenic shock	10	0																		22	
	respiratory insufficiency	35	12					3	9	1	1	1	1	7							144	
III metabolic/homoeostatic	exsiccosis	10	1										1	1							98	
	hemorrhagic shock (GI bleeding)	1	1									1									1	
	hepatic encephalopathy	9	6			1		3	2				1	1							14	
	hyperosmolar/ketoacidotic coma	6	6			2		1	6				3	3	3						7	
	hypoglycemia	10	6			3		3	3	1			1	1							11	
	hyponatremia	10	9	1	8			1													15	
uremia	uremia	4	2	1	1					2				2							21	
	hypothermia	0	0																		11	
septicemia	septic encephalopathy	25	25	1	1			1	9	25	2		6	3			1	1			62	
	alcohol only	79	12			1			10	1											90	
intoxication	opiates/opioids (+ other)	34	17			2			12	3											36	
	benzodiazepines (+ other)	17	4			1			2					2							18	
	psychiatric medication	13	4			1		2	1	1				2							14	
	other substances	22	5			3		1	1	1				2	1						22	
unspecified encephalopathy	unspecified secondary CNS affection	10	0																		10	
surgical emergency	aortic dissection/bleeding	5	2					1	1												6	
	mesenteric infarction	1	1							1					1						1
