e-TABLE 2. Correlation between swallowing screen and oral feeding on ICU discharge

	Passed swallowing screen	Did not pass swallowing screen <sup>a</sup>	Total
<b>On oral feeding on ICU discharge</b>	136	8	144
<b>Not on oral feeding on ICU discharge</b>	7	36	43
<b>Total</b>	143	44	187

Overall correlation =  $172/187 \times 100\% = 92.0\%$

<sup>a</sup> Includes patients who failed the swallowing screen overall and patients who missed all three days of screening
