

SUPPLEMENTAL MATERIAL

Abdulla et al. 2020: Failure of target attainment of beta-lactam antibiotics in critically ill patients and associated risk factors: a two-center prospective study (EXPAT study)

Figure S1. Box (median, 25th and 75th percentiles) and whisker (10th and 90th percentiles) plots of unbound peak (fC_{max}) plasma concentrations observed in critically ill patients treated with six beta-lactam antibiotics. The numbers of peak samples (n) is presented per antibiotic.

Outliers are removed using ROUT method (Q = 0.5%). Filled circles are remaining outliers.

*Amoxicillin and Amoxicillin/Clavulanic acid
