

Additional file 2: Table S2. Logistic regression models and discriminatory capacity of the risk factor and BMI adjusted breast density estimates not already shown in Table 7. Odds ratios, area under the curve (AUC) of the receiver operating characteristic (ROC) and 95% confidence intervals for the models are provided. Dashes indicate features not included in each model.

Risk Factor	Gail Risk Factors and BMI Plus Absolute Dense Area			Gail Risk Factors and BMI Plus Absolute Dense Volume			Gail Risk Factors and BMI Plus Volume Percent Density			Gail Risk Factors and BMI Plus BI-RADS Breast Density
