

Figure S2. FUT8 expression in invasive or metastatic breast cancers. (A) FUT8 expression analysis of TCGA Breast Cancer (BRCA) cohort using UCSC Xena browser (<https://xenabrowser.net>). (B) FUT8 expression of matched ductal carcinomas *in situ* (DCIS) and invasive component (IDC) of seven breast ductal carcinoma patients [1]. Data are median (horizontal line), upper and lower quartiles (box edges) and ranges (whiskers).
