Confirmation government funding and assessment corresponding to a peer-review

Dear Professor von Arnim,

we hereby confirm that the project „PRECOVERY – Prehabilitation „Karl-Heinz“ mit Schwerpunkt auf cardiale und kognitive Funktionen vor Eingriffen am Herzen: eine Analyse des Gesundheitszustands“ is funded by the German Innovation Fund with the funding number: 01NVF21109.

Projects funded by the German Innovation Fund run through an assessment procedure that correspond to a peer-review.

Details of the assessment procedure are described in § 9 of the Code of procedure of the council of the German Innovation Fund: [Verfahrensordnung IA \(g-ba.de\)](https://www.g-ba.de/verfahren/verfahrensordnung-ia).

The application for „PRECOVERY“ was assessed by an council of experts and finally (under consideration of the results of the experts) of the council of the German Innovation Fund (existing of 12 members).

The council of the German Innovation Fund is located at the Federal Joint Committee (G-BA)¹. The Federal Joint Committee is the highest decision-making body of the joint self-government of

¹ in German: Innovationsausschuss beim Gemeinsamen Bundesausschuss.

physicians, dentists, hospitals and health insurance funds in Germany. It issues directives for the benefit catalogue of the statutory health insurance funds (GKV) for more than 73 million insured persons and thus specifies which services in medical care reimbursed by the GKV.

The documentation of the PRECOVERY project is accessible on the website of the funding body: [PRECOVERY – Prehabilitation „Karl-Heinz“ mit Schwerpunkt auf cardiale und kognitive Funktionen vor Eingriffen am Herzen: eine Analyse des Gesundheitszustands - G-BA Innovationsfonds.](#)

- Please contact us if additional questions arise.

Sincerely yours,

Dr. Annelie Brendel
