- Gesamtdokument_Anlagen_V1.1_20230110G_komprimiert, with changes marked

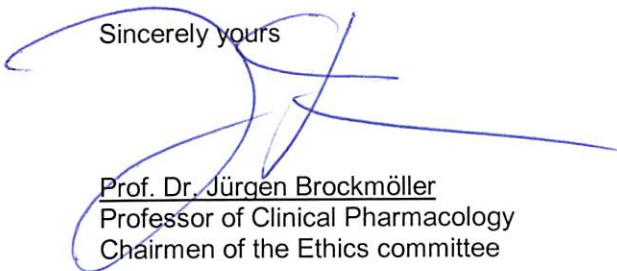

Dear Prof. Dr. von Armin, Dear Sir / Madam,

We hereby acknowledge that the ethics committee of the Medical Faculty of the University of Göttingen has taken note of the Amendment. The members of our Ethics-committee did not have any ethical or legal objections against this amendment.

We would like to inform you that irrespective of this positive vote allowing to start with the study it is your responsibility to control at every step of the investigations the ethically and legally correct conduct of the study. Any changes in the study protocol or termination of the study have to be reported to the Ethics committee. When the study is finished please be so kind to send us a brief report about the study including any severe adverse events and the results from the study; alternatively a scientific publication about the study would fulfill the same purpose.

We wish you a good success with your interesting research proposal.

Sincerely yours

Prof. Dr. Jürgen Brockmüller
Professor of Clinical Pharmacology
Chairmen of the Ethics committee
