

**DATA EXTRACTION FORM: ASSOCIATION BETWEEN BODY MASS INDEX AND
SUICIDAL BEHAVIOUR: A SYSTEMATIC REVIEW.**

STUDY DETAILS

Study ID: _____

Reviewer Initials: _____

Last Name of First Author, Initial: _____

Year of Publication: _____

Title of Article: _____

Journal Name: _____

City, Country: _____

METHODS

Study Setting: _____

Study Design: _____

Sample Size: Total _____, Men _____, Women _____

Mean Age (SD): Total _____, Men _____, Women _____

Ethnicity: _____

RESULTS

Suicide Behaviour Outcome (completed suicide, attempted suicide, suicide ideation, other):

Outcome Definition:

Outcome Measurement/Assessment:

Number of Individuals Experiencing the event: Completed suicide _____,
Attempted Suicide _____

Suicide Ideation _____, Other _____, N/A _____,

Statistical Testing/Methods: _____

Adjusted For:

Statistical Results: Coefficient _____, 95% CI _____, p-value _____

Main/Additional Findings:

Study Limitations:

Inclusion Criteria (all criteria must be checked to be included):

The study examines the association between body mass index (BMI) and risk of suicidal behaviours

Study participants are ≥ 18 years of age

Study participants are human

Study has been completed and published

Exclusion Criteria (study will be excluded if any of the following are present):

Includes children and adolescents

Reports the association between risk of suicide and BMI following medical or pharmacological treatment of obesity (e.g. bariatric surgery).

Animal Study

Incomplete Study

Abstract, commentary, review
