Study Details

Study ID: _____ Reviewer initials: _____

First author surname, initial: _____ Year of publication: _____

Journal name: _____

Methods (20)

Study design: _____ Study setting: _____

Sample Size: _____ Study population: _____

Intervention target: _____
(tobacco, physical activity, diet quality, sleep-wake disturbance, alcohol, cannabis, illicit drug)

Type of intervention: _____

SELECTION BIAS (low, unclear, high): _____

Random sequence generation: _____

Allocation concealment: _____

PERFORMANCE BIAS (low, unclear, high): _____

Blinding of participants and personnel: _____

DETECTION BIAS (low, unclear, high): _____

Blinding of outcome assessment: _____

Mode of outcome assessment: _____

ATTRITION BIAS (low, unclear, high): _____

Approached =   Eligible =   Consented =   Baseline =

Intervention completion rates = _____

Follow-up 1=   Follow-up 2 =   Follow-up 3 =

Incomplete outcome data short term? _____

Incomplete outcome data long term? _____

Results (20)

REPORTING BIAS (low, unclear, high):

Primary outcome, incl. endpoint:

Other outcomes, incl. endpoint:

Phase of bipolar disorder for participants at recruitment:

Age at baseline: Gender split:

PRIMARY OUTCOME:

Data analysis approach: Management of missing data:

Statistical results – Coefficient: 95% CI: p-value:

Adjusted for:

OTHER OUTCOMES: (detail)

Statistical results – Coefficient: 95% CI: p-value:

Adjusted for:

OTHER OUTCOMES: (detail, and add as necessary)

Statistical results – Coefficient: 95% CI: p-value:

Adjusted for:

Multiple health behavior outcomes reported? (Y/N)

Details of multiple health behavior outcomes:

Medication side effects reported: (detail)

Patient acceptability reported: (detail)

Main/Additional Findings:

Study limitations:

Selective outcome reporting? (rating A-I):
(as per ORBIT classification system, 21)
