

DATA & SAFETY MONITORING BOARD

The Substance Abuse Treatment to HIV care (SAT2HIV) Project includes a Phase III clinical trial focused on testing the effectiveness of a single 20-30 minute motivational interviewing-based brief intervention for substance use within AIDS Service Organizations. In addition to being conducted under the auspices of RTI International's Institutional Review Board (IRB), this project will be conducted with assistance from an independent Data & Safety Monitoring Board (DSMB). Below is the list of the DSMB members.
