

Supplementary Figure 3

Kaplan Meier estimates of oncological outcomes stratified by systemic immune-inflammation index (SII) in patients with upper tract urothelial carcinoma treated with radical nephroureterectomy (RNU)

(A) Recurrence-free survival (RFS) in ureter tumor

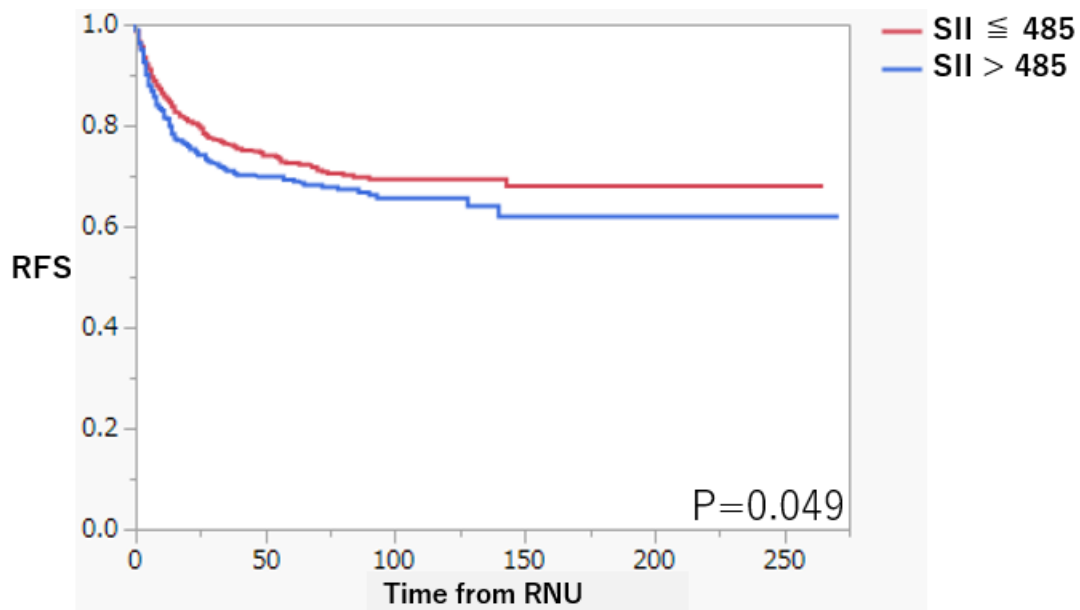

(B) Cancer-specific survival (CSS) in ureter tumor

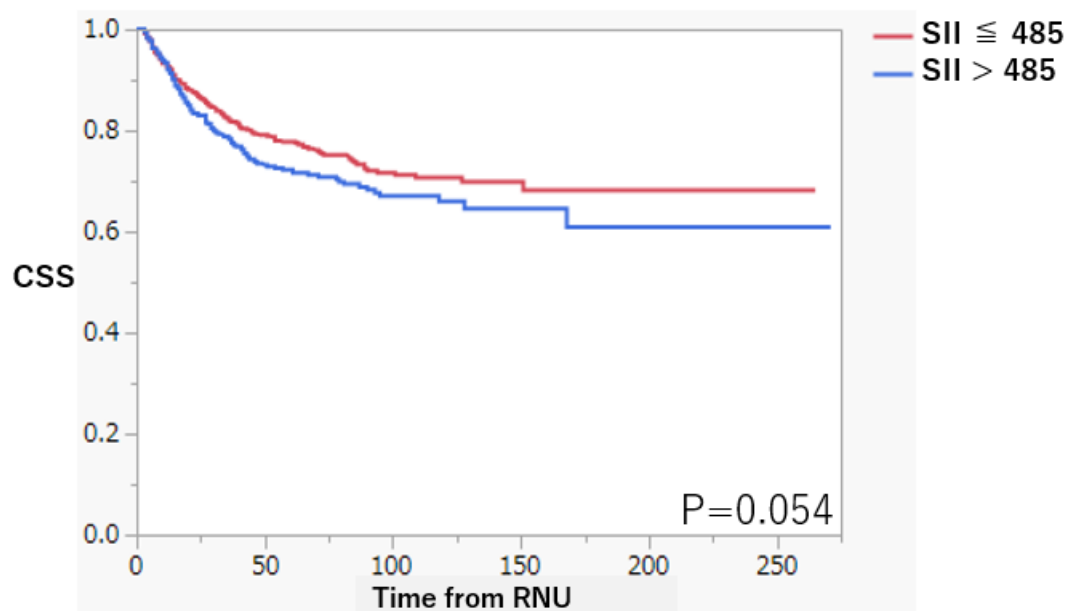

(C) Overall survival (OS) in ureter tumor

(D) RFS in renal tumor

(E) CSS in renal tumor

(F) OS in renal tumor
