# 1. What is the study about?

You are invited to participate in a study of the nursing and allied health staff who work in public rheumatology departments in Australia. We hope to learn about the access patients have to nursing and allied health professionals, and if there are geographic differences in access.

Your contact details were obtained from the Australian Rheumatology Association.

# 2. Do I have to participate?

Being part of this study is voluntary. If you want to be part of the study, we ask that you read the information below carefully.

You can read the information below and decide at the end if you do not want to participate. If you decide not to participate this won't affect your relationship with La Trobe University or any other listed organisation.

# 3. Who is being asked to participate?

You have been asked to participate because you are a Lead or Manager of an Australian public rheumatology department.

#### 4. What will I be asked to do?

If you want to take part in this study, we will ask you to complete an online survey. It will take less than 10 minutes of your time to be part of this study. We would like you to answer on behalf of the staff in your rheumatology department.

# 5. What are the benefits?

While there are no direct benefits for you taking part in this study, the expected benefits to society in general are that we will learn more about the provision of care in public rheumatology departments nursing and allied health professionals. This can help to guide future staffing decisions to provide optimum care for patients.

### 6. What are the risks?

With any study there are (1) risks we know about, (2) risks we don't know about, and (3) risks we don't expect. If you experience something that you aren't sure about, please contact us immediately so we can discuss the best way to manage your concerns.

7. What will happen to information about me?

By clicking on the 'I agree, start questionnaire' button, this tells us you want to take part in the study.

- We will collect information about you in ways that will reveal who you are.
- We will store information about you in ways that will reveal who you are.
- We will publish information about you in ways that will not be identified in any type of publication from this study.
- We will keep your information for 5 years after the project is completed. After this time we will destroy all of your data.
- The storage, transfer and destruction of your data will be undertaken in accordance with the Research Data Management Policy https://policies.latrobe.edu.au/document/view.php?id=106/.
- The personal information you provide will be handled in accordance with applicable privacy laws, any health information collected will be handled in accordance with the Health Records Act 2001 (Vic). Subject to any exceptions in relevant laws, you have the right to access and correct your personal information by contacting the research team.
- 8. Will I hear about the results of the study?

We will let you know about the results of the study by email once the findings are published.

9. What if I change my mind?

If you no longer want to complete the questionnaire, simply close the web browser. If you change your mind after clicking on the 'Submit' button, we can withdraw your responses because we can link who you are with your questionnaire responses.

Your decision to withdraw at any point will not affect your relationship with La Trobe University or any other organisation listed.
